

MOSCATO D'AMBURGO

Description

The excellent flavor and the crunchiness of the grape variety make it a great demand. Excellent productivity and shelf life of grapes. Originally from England where it is called “Black of Alexandria”, spread first to France and later in a number of wine-producing countries.

Sprouting: medium (after the first ten days of April).

Ripening: medium (Sicily 15th – 25th of August; Veneto 5th – 15th of September).

Bunch: medium-large, pyramidal, elongated, sparse, with one or two wings, average weight gr. 400-600.

Berry: Medium-large (6-7 gr.), slightly ellipsoidal, with a very thin but strong pruinose peel, with an intense purplish black color; fairly soft, sweet, juicy pulp with a pleasant Muscat flavor.

Vegetal-productive characteristics: Vigour is high with abundant and constant production.

Cold resistance: very good

Diseases resistance: it's a traditional variety that requires treatments (4-8) with copper and sulfur based products for sustainable agriculture.

Data Sheet

Grape berry color	Red
Maturation period	1st decade of September, 3rd decade of August
Grape	medium, round, with seeds
Flavor	fruity, muscat
Bunch	big, thick
Use	Juices, table
Breeding	creeper, espalier, pergola, pot
Where to plant	city, flat land – under 200 mt, hill 200-500 mt
Suitable for	family vineyards, professional vineyards, vegetable garden
Diseases resistance	Low
Downy mildew bunch	Low
Downy mildew leaves	Low
Powdery mildew leaves	Low
Powdery mildew bunch	Low
Botrytis	Low
Phytosanitary treatments	From 6 to more treatments depending on the climatic conditions with products based on copper and sulfur
Other	old variety
